HYBRID TEA ROSE PLANT NAMED 'MISS AMBER'

CLASSIFICATION

The present invention relates to a new *Rosaceae* *Rosa hybrida* plant.

5

VARIETY DENOMINATION

The new plant has the varietal denomination 'MISS AMBER'.

BACKGROUND OF THE INVENTION

10

The present invention relates to a new and distinct variety of rose plant of the hybrid tea rose of the genus *Rosaceae* which was created by crossing as seed and pollen parents two (2) unknown rose varieties. The varietal denomination of the new variety is 'MISS AMBER'.

15

SUMMARY OF THE INVENTION

Among the novel characteristics possessed by this new variety which distinguishes it from other varieties of which I am aware, is its orange-red flowers.

20

Asexual reproduction by propagation by budding of the new variety onto 'Dr. Huey' rootstock as performed in Wasco, California shows that the foregoing and other distinguishing characteristics come true to form and are established and transmitted through succeeding propagations.

BRIEF DESCRIPTION OF ILLUSTRATION

1 The accompanying illustration shows typical specimens of the
flowers and foliage of the new variety depicted in color as
nearly true as it is reasonably possible to make the same in a
color illustration of this character.

DESCRIPTION OF THE NEW VARIETY

1 The following is a detailed description of 2-year budded
plants of the new variety , with color terminology in accordance
with *The Royal Horticultural Society Colour Chart* (RHSCC). The
terminology used in color description herein refers to plate
5 numbers in the aforementioned color chart. Phenotypic expression
may vary with light availability, environmental and cultural
conditions.

 The following observations are made of specimens grown
outdoors in Wasco, California, during November budded on
10 'DR. HUEY' understock.

PLANT

Form: Spreading

Growth: Semi-vigorous

15 Size: Height about 36 inches; width
about 36 inches

Foliage

20 Size: Terminal leaflet length about
2 1/4 inches; width about
1 1/2 inches

25 Quantity: ~~Usually compound 5 leaflet~~
~~leaves, occasional most often~~
~~has 7 leaflets leaves~~
Compound, usually 5 to 7
leaflets; most typically 7
leaflets
